

TYMUR MARENYCH

Liverpool, UK | +44 7960 713724
tymurmarenych@gmail.com | github.com/MoonlightUser

Computer Science student seeking a Summer 2027 software engineering internship. Personal projects in web development, multiplayer chess and algorithm visualisation; interested in learning through practical work in a software team.

EDUCATION

University of Liverpool

Sep 2026 - Expected 2030

BSc Computer Science with a Year in Industry (G403)

Long Road Sixth Form College, Cambridge

A levels: Russian A*; Mathematics B.

BTEC Media: High Merit; BTEC Computing: Merit.

Sawston Village College, Cambridge

2022 - 2023

GCSEs: Mathematics 7; Computer Science 5; Combined Science 5/5; English 4.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, PHP; some experience with TypeScript and Python.

Web and data: Node.js, MySQL; exposure to React and Angular.

Tools: Git, GitHub, Docker, Nginx.

PROJECTS

Chess by Tymur | Web application

- Built the original chess web application using JavaScript, Node.js, PHP and MySQL, connecting the interface to server-side logic and stored user data.
- Worked on account functionality using JWT and integrated Pusher for real-time updates between connected users.

Code: github.com/MoonlightUser/MyPortfolio

Self-hosted portfolio | Docker, Nginx

- Hosted a personal portfolio on a home server using Docker and Nginx, practising container setup, web server configuration and troubleshooting.

Algorithm visualisations | JavaScript, HTML, CSS

- Created Barnsley fern and Sierpinski triangle demonstrations using repeated coordinate transformations and random point selection to generate fractal patterns.

EXPERIENCE AND TRAINING

Kitchen Assistant | Greenhouse Cafe / Scotsdales

Aug 2025 - May 2026

- Worked full-time during a gap year, supporting day-to-day kitchen operations and coordinating tasks with colleagues during busy shifts.

Web Development Course | IT STEP Computer Academy

Jan - Jul 2022

- Completed practical HTML, CSS and JavaScript projects; collaborated with other students on a website and used GitHub for version control.

ADDITIONAL INFORMATION

Languages: English, Ukrainian, Russian. **Interests:** PC hardware, automation, guitar.
